15 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

16 **CHIROPRACTIC**

17 NEW SECTION. **Sec. 101.** A new section is added to chapter 18.25
18 RCW to read as follows:

19 This chapter is enacted:

20 (1) In the exercise of the police power of the state and to provide
21 an adequate public agency to act as a disciplinary body for the members
22 of the chiropractic profession licensed to practice chiropractic in
23 this state;

24 (2) Because the health and well-being of the people of this state
25 are of paramount importance;

26 (3) Because the conduct of members of the chiropractic profession
27 licensed to practice chiropractic in this state plays a vital role in
28 preserving the health and well-being of the people of the state; and

29 (4) Because practicing other healing arts while licensed to
30 practice chiropractic and while holding one's self out to the public as
31 a chiropractor affects the health and welfare of the people of the
32 state.

33 It is the purpose of the commission established under section 104
34 of this act to regulate the competency and quality of professional
35 health care providers under its jurisdiction by establishing,
36 monitoring, and enforcing qualifications for licensing, consistent

1 standards of practice, continuing competency mechanisms, and
2 discipline. Rules, policies, and procedures developed by the
3 commission must promote the delivery of quality health care to the
4 residents of the state.

5 **Sec. 102.** RCW 18.25.005 and 1992 c 241 s 2 are each amended to
6 read as follows:

7 (1) Chiropractic is the practice of health care that deals with the
8 diagnosis or analysis and care or treatment of the vertebral
9 subluxation complex and its effects, articular dysfunction, and
10 musculoskeletal disorders, all for the restoration and maintenance of
11 health and recognizing the recuperative powers of the body.

12 (2) Chiropractic treatment or care includes the use of procedures
13 involving spinal adjustments, and extremity manipulation insofar as any
14 such procedure is complementary or preparatory to a chiropractic spinal
15 adjustment. Chiropractic treatment also includes the use of heat,
16 cold, water, exercise, massage, trigger point therapy, dietary advice
17 and recommendation of nutritional supplementation except for medicines
18 of herbal, animal, or botanical origin, the normal regimen and
19 rehabilitation of the patient, first aid, and counseling on hygiene,
20 sanitation, and preventive measures. Chiropractic care also includes
21 such physiological therapeutic procedures as traction and light, but
22 does not include procedures involving the application of sound,
23 diathermy, or electricity.

24 (3) As part of a chiropractic differential diagnosis, a
25 chiropractor shall perform a physical examination, which may include
26 diagnostic x-rays, to determine the appropriateness of chiropractic
27 care or the need for referral to other health care providers. The
28 chiropractic (~~((disciplinary board))~~) quality assurance commission shall
29 provide by rule for the type and use of diagnostic and analytical
30 devices and procedures consistent with this chapter.

31 (4) Chiropractic care shall not include the prescription or
32 dispensing of any medicine or drug, the practice of obstetrics or
33 surgery, the use of x-rays or any other form of radiation for
34 therapeutic purposes, colonic irrigation, or any form of venipuncture.

35 (5) Nothing in this chapter prohibits or restricts any other
36 practitioner of a "health profession" defined in RCW 18.120.020(4) from
37 performing any functions or procedures the practitioner is licensed or
38 permitted to perform, and the term "chiropractic" as defined in this

1 chapter shall not prohibit a practitioner licensed under chapter 18.71
2 RCW from performing medical procedures, except such procedures shall
3 not include the adjustment by hand of any articulation of the spine.

4 **Sec. 103.** RCW 18.25.006 and 1992 c 241 s 3 are each amended to
5 read as follows:

6 Unless the context clearly requires otherwise, the definitions in
7 this section apply throughout this chapter.

8 (1) "Department" means the department of health.

9 (2) "Secretary" means the secretary of the department of health or
10 the secretary's designee.

11 (3) "Chiropractor" means an individual licensed under this chapter.

12 (4) (~~("Board" means the Washington state board of chiropractic~~
13 ~~examiners-))~~ "Commission" means the Washington state chiropractic
14 quality assurance commission.

15 (5) "Vertebral subluxation complex" means a functional defect or
16 alteration of the biomechanical and physiological dynamics in a joint
17 that may cause neuronal disturbances, with or without displacement
18 detectable by x-ray. The effects of the vertebral subluxation complex
19 may include, but are not limited to, any of the following: Fixation,
20 hypomobility, hypermobility, periarticular muscle spasm, edema, or
21 inflammation.

22 (6) "Articular dysfunction" means an alteration of the
23 biomechanical and physiological dynamics of a joint of the axial or
24 appendicular skeleton.

25 (7) "Musculoskeletal disorders" means abnormalities of the muscles,
26 bones, and connective tissue.

27 (8) "Chiropractic differential diagnosis" means a diagnosis to
28 determine the existence of a vertebral subluxation complex, articular
29 dysfunction, or musculoskeletal disorder, and the appropriateness of
30 chiropractic care or the need for referral to other health care
31 providers.

32 (9) "Chiropractic adjustment" means chiropractic care of a
33 vertebral subluxation complex, articular dysfunction, or
34 musculoskeletal disorder. Such care includes manual or mechanical
35 adjustment of any vertebral articulation and contiguous articulations
36 beyond the normal passive physiological range of motion.

37 (10) "Extremity manipulation" means a corrective thrust or maneuver
38 applied to a joint of the appendicular skeleton. The use of extremity

1 manipulation shall be complementary and preparatory to a chiropractic
2 spinal adjustment to support correction of a vertebral subluxation
3 complex and is considered a part of a spinal adjustment and shall not
4 be billed separately from or in addition to a spinal adjustment.

5 NEW SECTION. **Sec. 104.** A new section is added to chapter 18.25
6 RCW to read as follows:

7 COMMISSION ESTABLISHED--MEMBERS APPOINTED BY THE GOVERNOR. The
8 Washington state chiropractic quality assurance commission is
9 established, consisting of fourteen members appointed by the governor
10 to four-year terms, and including eleven practicing chiropractors and
11 three public members. No member may serve more than two consecutive
12 full terms. In appointing the initial members of the commission, it is
13 the intent of the legislature that, to the extent possible, the
14 governor appoint members of the previous boards and committees
15 regulating this profession to the commission. Members of the
16 commission hold office until their successors are appointed. The
17 governor may appoint the members of the initial commissions to
18 staggered terms of from one to four years. Thereafter, all members
19 shall be appointed to full four-year terms. The governor may consider
20 persons who are recommended for appointment by chiropractic
21 associations of this state.

22 NEW SECTION. **Sec. 105.** A new section is added to chapter 18.25
23 RCW to read as follows:

24 COMMISSION--REMOVAL OF MEMBERS--VACANCIES. The governor may remove
25 a member of the commission for neglect of duty, misconduct, or
26 malfeasance or misfeasance in office. Whenever the governor is
27 satisfied that a member of the commission has been guilty of neglect of
28 duty, misconduct, or malfeasance or misfeasance in office, the governor
29 shall file with the secretary of state a statement of the causes for
30 and the order of removal from office, and the secretary shall forthwith
31 send a certified copy of the order of removal and statement of causes
32 by certified mail to the last known post office address of the member.
33 If a vacancy occurs on the commission, the governor shall appoint a
34 replacement to fill the remainder of the unexpired term.

35 NEW SECTION. **Sec. 106.** A new section is added to chapter 18.25
36 RCW to read as follows:

1 COMMISSION--QUALIFICATIONS OF MEMBERS. Members must be citizens of
2 the United States and residents of this state. Members must be
3 licensed chiropractors for a period of five years before appointment.
4 Public members of the commission may not be a member of any other
5 health care licensing board or commission, or have a fiduciary
6 obligation to a facility rendering health services regulated by the
7 commission, or have a material or financial interest in the rendering
8 of health services regulated by the commission.

9 NEW SECTION. **Sec. 107.** A new section is added to chapter 18.25
10 RCW to read as follows:

11 COMMISSION--DUTIES AND POWERS. The commission shall elect officers
12 each year. Meetings of the commission are open to the public, except
13 that the commission may hold executive sessions to the extent permitted
14 by chapter 42.30 RCW. The secretary of health shall furnish such
15 secretarial, clerical, and other assistance as the commission may
16 require.

17 Each member of the commission shall be compensated in accordance
18 with RCW 43.03.240. Members shall be reimbursed for travel expenses
19 incurred in the actual performance of their duties, as provided in RCW
20 43.03.050 and 43.03.060.

21 A majority of the commission members appointed and serving
22 constitutes a quorum for the transaction of commission business. The
23 affirmative vote of a majority of a quorum of the commission is
24 required to carry a motion or resolution, to adopt a rule, or to pass
25 a measure.

26 The commission may appoint members of panels of at least three
27 members. A quorum for transaction of any business by a panel is a
28 minimum of three members. A majority vote of a quorum of the panel is
29 required to transact business delegated to it by the commission.

30 The members of the commission are immune from suit in an action,
31 civil or criminal, based upon its disciplinary proceedings or other
32 official acts performed in good faith as members of the commission.

33 The commission may, whenever the workload of the commission
34 requires, request that the secretary appoint pro tempore members.
35 While serving as members pro tempore persons have all the powers,
36 duties, and immunities, and are entitled to the emoluments, including
37 travel expenses, of the commission.

1 The commission shall prepare or determine the nature of the
2 examinations for applicants to practice chiropractic.

3 The commission may adopt such rules as are consistent with this

19 RCW to read as follows:

20 The legislature finds that the health and well-being of the people

33 disciplinary and regulatory body for the members of the dental
34 profession licensed to practice dentistry in this state.

36 this act to regulate the competency and quality of professional health
37 care providers under its jurisdiction by establishing, monitoring, and

34 (4) Provisions relating to disciplinary action against a person
35 with a license shall be applicable to a person with an inactive

8 been appointed and, upon the request of the applicant and the
9 sponsoring institution, the license may be renewed by the ((board))
10 commission for no more than a total of two years.

5 quarterly at times and places it designates. It shall hold such other
6 meetings during the year as may be deemed necessary to transact its
7 business. A majority of the commission members appointed and serving
8 constitutes a quorum at a meeting. All meetings of the commission must
9 be open and public, except that the commission may hold executive
10 sessions to the extent permitted by chapter 42.30 RCW.

11 Carrying a motion or resolution, adopting a rule, or passing a
12 measure requires the affirmative vote of a majority of a quorum of the
13 commission. The commission may appoint panels consisting of at least
14 three members. A quorum for transaction of any business by a panel is
15 a minimum of three members. A majority vote of a quorum of the panel
16 is required to transact business delegated to it by the commission.

17 NEW SECTION. **Sec. 411.** The commission shall keep a record of all
18 of its proceedings and make such reports to the governor as may be
19 required. The commission shall define by rules what constitutes
20 specialized and advanced levels of nursing practice as recognized by
21 the medical and nursing profession. The commission may adopt rules or

24 in this state concerning the authority of various categories of nursing
25 practitioners to perform particular acts.

27 for minimum standards for schools preparing persons for licensing as
28 registered nurses, advanced registered nurse practitioners, and
29 licensed practical nurses under this chapter. The commission shall
30 approve such schools of nursing as meet the requirements of this
31 chapter and the commission, and the commission shall approve
32 establishment of basic nursing education programs and shall establish
33 criteria as to the need for and the size of a program and the type of
34 program and the geographical location. The commission shall establish
35 criteria for proof of reasonable currency of knowledge and skill as a
36 basis for safe practice after three years' inactive or lapsed status.
37 The commission shall establish criteria for licensing by endorsement.

1 The commission shall determine examination requirements for applicants
2 for licensing as registered nurses, advanced registered nurse
3 practitioners, and licensed practical nurses under this chapter, and
4 shall certify to the secretary for licensing duly qualified applicants.

5 The commission shall adopt such rules under chapter 34.05 RCW as
6 are necessary to fulfill the purposes of this chapter.

7 The commission is the successor in interest of the board of nursing
8 and the board of practical nursing. All contracts, undertakings,
9 agreements, rules, regulations, decisions, orders, and policies of the
10 former board of nursing or the board of practical nursing continue in
11 full force and effect under the commission until the commission amends
12 or rescinds those rules, regulations, decisions, orders, or policies.

13 The members of the commission are immune from suit in an action,
14 civil or criminal, based on its disciplinary proceedings or other
15 official acts performed in good faith as members of the commission.

16 Whenever the workload of the commission requires, the commission
17 may request that the secretary appoint pro tempore members of the
18 commission. When serving, pro tempore members of the commission have
19 all of the powers, duties, and immunities, and are entitled to all of
20 the emoluments, including travel expenses, of regularly appointed
21 members of the commission.

26 consultation with the commission, an executive director who shall act
27 to carry out this chapter. The secretary shall also employ such

29 necessary to effectively administer this chapter. The secretary shall
30 fix the compensation and provide for travel expenses for the executive
31 director and all such employees, in accordance with RCW 43.03.050 and
32 43.03.060.

33 NEW SECTION. **Sec. 414.** The executive director must be a graduate

10 commission for basic registered nursing or practical nursing, or both;
11 and

12 (2) It is prepared to meet other standards established by law and
13 by the commission.

14 The commission shall make, or cause to be made, such surveys of the
15 schools and programs, and of institutions and agencies to be used by
16 the schools and programs, as it determines are necessary. If in the
17 opinion of the commission, the requirements for an approved school of
18 registered nursing or a school or program of practical nursing, or
19 both, are met, the commission shall approve the school or program.

20 NEW SECTION. **Sec. 416.** (1) An applicant for a license to practice
21 as a registered nurse shall submit to the commission:

9 chapter 18.130 RCW or this chapter.

10 (5) The commission shall establish by rule the criteria for
11 evaluating the education of all applicants.

12 NEW SECTION. Sec. 417. An applicant for a license to practice as
13 a registered nurse, advanced registered nurse practitioner, or licensed
14 practical nurse must pass an examination in subjects determined by the
15 commission. The examination may be supplemented by an oral or
16 practical examination. The commission shall establish by rule the
17 requirements for applicants who have failed the examination to qualify
18 for reexamination.

19 NEW SECTION. Sec. 418. When authorized by the commission, the
20 department shall issue an interim permit authorizing the applicant to
21 practice registered nursing, advanced registered nursing, or licensed
22 practical nursing, as appropriate, from the time of verification of the

25 examination, and if all other requirements established by the
26 commission for licensing are met, the department shall issue the
27 applicant a license to practice registered nursing, advanced registered
28 nursing, or licensed practical nursing, as appropriate. If the
29 applicant fails the examination, the interim permit expires upon
30 notification to the applicant, and is not renewable. The holder of an
31 interim permit is subject to chapter 18.130 RCW.

32 NEW SECTION. Sec. 419. Upon approval of the application by the
33 commission, the department shall issue a license by endorsement without
34 examination to practice as a registered nurse or as a licensed
35 practical nurse to a person who is licensed as a registered nurse or
36 licensed practical nurse under the laws of another state, territory, or

1 possession of the United States, and who meets all other qualifications
2 for licensing.

3 An applicant who has graduated from a school or program of nursing
4 outside the United States and is licensed as a registered nurse or
5 licensed practical nurse, or their equivalents, outside the United
6 States must meet all qualifications required by this chapter and pass
7 examinations as determined by the commission.

8 NEW SECTION. **Sec. 420.** An applicant for a license to practice as

13 whether in an active or inactive status, must be renewed, except as
14 provided in this chapter. The licensee shall send the renewal form to
15 the department with a renewal fee, as determined by the secretary under
16 RCW 43.70.250, before the expiration date. Upon receipt of the renewal
17 form and the appropriate fee, the department shall issue the licensee
18 a license, which declares the holder to be a legal practitioner of
19 registered nursing, advanced registered nursing practice, or licensed
20 practical nursing, as appropriate, in either active or inactive status,
21 for the period of time stated on the license.

22 NEW SECTION. **Sec. 422.** A person licensed under this chapter who
23 allows his or her license to lapse by failing to renew the license,
24 shall on application for renewal pay a penalty determined by the
25 secretary under RCW 43.70.250. If the licensee fails to renew the
26 license before the end of the current licensing period, the department
27 shall issue the license for the next licensing period upon receipt of
28 a written application and fee determined by the secretary under RCW
29 43.70.250. Persons on lapsed status for three or more years must
30 provide evidence of knowledge and skill of current practice as required
31 by the commission.

2 the person on inactive status. While remaining on this status the
3 person shall not practice in this state any form of nursing provided
4 for in this chapter. When the person desires to resume practice, the
5 person shall apply to the commission for renewal of the license and pay
6 a renewal fee to the state treasurer. Persons on inactive status for

19 (12) of this section, including but not limited to wet gas, dry gas,
20 residue gas, condensate, and distillate, as those terms are generally
21 understood in the petroleum industry.

22 (8) "Illegal oil" or "illegal gas" means oil or gas that has been
23 produced from any well within the state in violation of this chapter or
24 any rule or order of the ((committee)) department.

25 (9) "Illegal product" means any product derived in whole or part
26 from illegal oil or illegal gas.

27 (10) "Interested person" means a person with an ownership, basic
28 royalty, or leasehold interest in oil or gas within an existing or
29 proposed development unit or unitized pool.

30 (11) "Lessee" means the lessee under an oil and gas lease, or the
31 owner of any land or mineral rights who has the right to conduct or
32 carry on any oil and gas development, exploration and operation
33 thereon, or any person so operating for himself, herself, or others.

34 (12) "Oil" means crude petroleum, oil, and all hydrocarbons,
35 regardless of gravity, that are in the liquid phase in the original
36 reservoir conditions and are produced and recovered at the wellhead in
37 liquid form.

38 (13) "Operator" means the person who operates a well or unit or who
39 has been designated or accepted by the owners to operate the well or

1 unit, and who is responsible for compliance with the ((committee's))
2 department's rules and policies.

3 (14) "Owner" means the person who has the right to develop,
4 operate, drill into, and produce from a pool and to appropriate the oil
5 or gas that he or she produces therefrom, either for that person or for
6 that person and others.

7 (15) "Person" means any natural person, corporation, association,
8 partnership, receiver, trustee, executor, administrator, guardian,
9 fiduciary, or representative of any kind and includes any governmental
10 or political subdivision or any agency thereof.

11 (16) "Pool" means an underground reservoir containing a common
12 accumulation of oil or gas, or both. Each zone of a structure which is
13 completely separated from any other zone in the same structure such
14 that the accumulations of oil or gas are not common with each other is
15 considered a separate pool and is covered by the term "pool" as used in
16 this chapter.

17 (17) "Pooling" means the integration or combination of two or more
18 tracts into an area sufficient to constitute a development unit of the
19 size for one well as prescribed by the ((committee)) department.

20 (18) "Product" means any commodity made from oil or gas.

21 (19) "Protect correlative rights" means that the action or
22 regulation by the ((committee)) department should afford a reasonable
23 opportunity to each person entitled thereto to recover or receive
24 without causing waste his or her fair and reasonable share of the oil
25 and gas in this tract or tracts or its equivalent.

26 (20) "Royalty" means a right to or interest in oil or gas or the
27 value from or attributable to production, other than the right or
28 interest of a lessee, owner, or operator, as defined herein. Royalty
29 includes, but is not limited to the basic royalty in a lease,
30 overriding royalty, and production payments. Any such interest may be
31 referred to in this chapter as "royalty" or "royalty interest." As
32 used in this chapter "basic royalty" means the royalty reserved in a
33 lease. "Royalty owner" means a person who owns a royalty interest.

34 (21) "Supervisor" means the state oil and gas supervisor.

2 petroleum industry;

3 (b) The inefficient, excessive, or improper use of, or unnecessary
4 dissipation of, reservoir energy, and the locating, spacing, drilling,
5 equipping, operating, or producing of any oil or gas well in a manner
6 which results or is probable to result in reducing the quantity of oil
7 or gas to be recovered from any pool in this state under operations
8 conducted in accordance with prudent and proper practices or that
9 causes or tends to cause unnecessary wells to be drilled;

10 (c) The inefficient above-ground storage of oil, and the locating,
11 spacing, drilling, equipping, operating, or producing of any oil or gas
12 well in a manner causing or tending to cause unnecessary or excessive
13 surface loss or destruction of oil or gas;

14 (d) The production of oil or gas in such manner as to cause
15 unnecessary water channeling, or coning;

16 (e) The operation of an oil well with an inefficient gas-oil ratio;

17 (f) The drowning with water of any pool or part thereof capable of
18 producing oil or gas, except insofar as and to the extent authorized by
19 the ((committee)) department;

20 (g) Underground waste;

21 (h) The creation of unnecessary fire hazards;

22 (i) The escape into the open air, from a well producing oil or gas,
23 of gas in excess of the amount which is reasonably necessary in the
24 efficient development or production of the well;

25 (j) The use of gas for the manufacture of carbon black, except as
26 provided in RCW 78.52.140;

27 (k) Production of oil and gas in excess of the reasonable market
28 demand;

15 before the ~~((committee))~~ department or a court, or from obedience to
16 the subpoena of the ~~((committee))~~ department or a court, on the ground
17 or for the reason that the testimony or evidence, documentary or
18 otherwise, required of ~~((him))~~ the person may tend to incriminate
19 ~~((him))~~ the person or subject ~~((him))~~ the person to a penalty or
20 forfeiture: PROVIDED, That nothing herein contained shall be construed
21 as requiring any person to produce any books, papers, or records, or to
22 testify in response to any inquiry not pertinent to some question

4 conduct a hearing or hearings with respect to any matter properly
5 coming before the ((committee)) department and to make reports and
6 recommendations to the ((committee)) department with respect thereto.
7 Any ((member)) employee of the ((committee, or its staff)) department
8 or any other person designated by the ((committee)) commissioner of

14 In case of failure or refusal on the part of any person to comply
15 with a subpoena issued by the ((committee)) department or in case of
16 the refusal of any witness to testify as to any matter regarding which
17 ((he)) the witness may be interrogated, any superior court in the
18 state, upon the application of the ((committee)) department, may compel
19 ((him)) the person to comply with such subpoena, and to attend before
20 the ((committee)) department and produce such records, books, and
21 documents for examination, and to give his or her testimony and shall

17 jurisdiction, power, and authority, over all persons and property,
18 public and private, necessary to enforce effectively such duty.

19 **Sec. 818.** RCW 78.52.050 and 1983 c 253 s 7 are each amended to
20 read as follows:

21 The (~~committee shall have authority to~~) department may make such
22 reasonable rules, regulations, and orders as may be necessary from time

24 Unless otherwise required by law or by this chapter or by rules of
25 procedure made under this chapter, the (~~committee~~) department may
26 make such rules, regulations, and orders, after notice, as the basis
27 therefor. The notice may be given by publication in some newspaper of
28 general circulation in the state in a manner and form which may be
29 prescribed by the (~~committee~~) department by general rule. The public
30 hearing shall be at the time and in the manner and at the place
31 prescribed by the (~~committee~~) department, and any person having any
32 interest in the subject matter of the hearing shall be entitled to be
33 heard. In addition, written notice shall be mailed to all interested
34 persons who have requested, in writing, notice of (~~committee~~)
35 department hearings, rulings, policies, and orders. The (~~committee~~)
36 department shall establish and maintain a mailing list for this

1 purpose. Substantial compliance with these mailing requirements is
2 deemed compliance with (~~the provisions herewith~~) this section.

3 **Sec. 819.** RCW 78.52.070 and 1951 c 146 s 12 are each amended to
4 read as follows:

5 Any interested person shall have the right to have the
6 (~~committee~~) department call a hearing for the purpose of taking
7 action with respect to any matter within the jurisdiction of the
8 (~~committee~~) department by filing a verified written petition
9 therefor, which shall state in substance the matter and reasons for and
10 nature of the action requested. Upon receipt of any such request the
11 (~~committee~~) department, if in its judgment a hearing is warranted and
12 justifiable, shall promptly call a hearing thereon, and after such
13 hearing, and with all convenient speed, and in any event within twenty
14 days after the conclusion of such hearing, shall take such action with
15 regard to the subject matter thereof as it may deem appropriate.

16 **Sec. 820.** RCW 78.52.100 and 1983 c 253 s 8 are each amended to
17 read as follows:

18 All rules, regulations, policies, and orders of the (~~committee~~)
19 department, all petitions, copies of all notices and actions with
20 affidavits of posting, mailing, or publications pertaining thereto, all
21 findings of fact, and transcripts of all hearings shall be in writing
22 and shall be entered in full by the (~~committee~~) department in the
23 permanent official records of the office of the commissioner of public
24 lands and shall be open for inspection at all times during reasonable
25 office hours. A copy of any rule, regulation, policy, order, or other
26 official records of the (~~committee~~) department, certified by the
27 (~~executive secretary of the committee~~) commissioner of public lands,
28 shall be received in evidence in all courts of this state with the same
29 effect as the original. The (~~committee~~) department is hereby
30 required to furnish to any person upon request, copies of all rules,
31 regulations, policies, orders, and amendments thereof.

32 **Sec. 821.** RCW 78.52.120 and 1983 c 253 s 11 are each amended to
33 read as follows:

34 Any person desiring or proposing to drill any well in search of oil
35 or gas, before commencing the drilling of any such well, shall apply to
36 the (~~committee~~) department upon such form as the (~~committee~~)

1 department may prescribe, and shall pay to the state treasurer a fee of
2 the following amounts for each application:

3 (1) For each well the estimated depth of which is three thousand
4 five hundred feet or less, two hundred fifty dollars;

5 (2) From three thousand five hundred one feet to seven thousand
6 feet, five hundred dollars;

7 (3) From seven thousand one feet to twelve thousand feet, seven
8 hundred fifty dollars; and

9 (4) From twelve thousand one feet and deeper, one thousand dollars.

10 In addition, as pertains to the tract upon which the well is
11 proposed to be located, the applicant must notify the surface
12 landowner, the landowner's tenant, and other surface users in the
13 manner provided by regulations of the ~~((committee))~~ department that a
14 drilling permit has been applied for by furnishing each such surface
15 landowner, tenant, and other users with a copy of the application
16 concurrent with the filing of the application. Within fifteen days of
17 receipt of the application, each such surface landowner, the
18 landowner's tenant, and other surface users have the right to inform
19 the ~~((committee))~~ department of objections or comments as to the
20 proposed use of the surface by the applicant, and the ~~((committee))~~
21 department shall consider the objections or comments.

22 The drilling of any well is prohibited until a permit is given and
23 such fee has been paid as ~~((herein))~~ provided in this section. The
24 ~~((committee shall have the authority to))~~ department may prescribe that
25 the said form indicate the exact location of such well, the name and
26 address of the owner, operator, contractor, driller, and any other
27 person responsible for the conduct of drilling operations, the proposed
28 depth of the well, the elevation of the well above sea level, and such
29 other relevant and reasonable information as the ~~((committee))~~
30 department may deem necessary or convenient to effectuate the purposes
31 of this chapter.

32 The ~~((committee))~~ department shall issue a permit if it finds that
33 the proposed drilling will be consistent with this chapter, the
34 rules~~((7))~~ and orders adopted under it, and is not detrimental to the
35 public interest. The ~~((committee))~~ department shall impose conditions
36 and restrictions as necessary to protect the public interest and to
37 ensure compliance with this chapter, and the rules and orders adopted
38 by the ~~((committee))~~ department. A person shall not apply to drill a
39 well in search of oil or gas unless that person holds an ownership or

1 contractual right to locate and operate the drilling operations upon
2 the proposed drilling site. A person shall not be issued a permit
3 unless that person prima facie holds an ownership or contractual right
4 to drill to the proposed depth, or proposed horizon. Proof of prima
5 facie ownership shall be presented to the ((committee)) department.

6 **Sec. 822.** RCW 78.52.125 and 1971 ex.s. c 180 s 8 are each amended
7 to read as follows:

8 Any person desiring or proposing to drill any well in search of oil
9 or gas, when such drilling would be conducted through or under any
10 surface waters of the state, shall prepare and submit an environmental
11 impact statement upon such form as the department of ecology shall
12 prescribe at least one hundred and twenty days prior to commencing the
13 drilling of any such well. Within ninety days after receipt of such
14 environmental statement the department of ecology shall prepare and
15 submit to ((each member of the committee)) the department of natural
16 resources a report examining the potential environmental impact of the
17 proposed well and recommendations for ((committee)) department action
18 thereon. If after consideration of the report the ((committee))
19 department determines that the proposed well is likely to have a
20 substantial environmental impact the drilling permit for such well may
21 be denied.

22 The ((committee)) department shall require sufficient safeguards to
23 minimize the hazards of pollution of all surface and ground waters of
24 the state. If safeguards acceptable to the ((committee)) department
25 cannot be provided the drilling permit shall be denied.

26 **Sec. 823.** RCW 78.52.140 and 1951 c 146 s 16 are each amended to
27 read as follows:

28 The use of gas from a well producing gas only, or from a well which
29 is primarily a gas well, for the manufacture of carbon black or similar
30 products predominantly carbon, is declared to constitute waste prima
31 facie, and such gas well shall not be used for any such purpose unless
32 it is clearly shown, at a public hearing to be held by the
33 ((committee)) department, on application of the person desiring to use
34 such gas, that waste would not take place by the use of such gas for
35 the purpose or purposes applied for, and that gas which would otherwise
36 be lost is not available for such purpose or purposes, and that the gas
37 to be used cannot be used for a more beneficial purpose, such as for

1 light or fuel purposes, except at prohibitive cost, and that it would
2 be in the public interest to grant such permit. If the ((committee))
3 department finds that the applicant has clearly shown a right to use
4 such gas for the purpose or purposes applied for, it shall issue a
5 permit upon such terms and conditions as may be found necessary in
6 order to permit the use of the gas, and at the same time require
7 compliance with the intent of this section.

8 **Sec. 824.** RCW 78.52.150 and 1951 c 146 s 17 are each amended to
9 read as follows:

10 The ~~((committee has authority, and it shall be its duty, to))~~
11 department shall make such investigations as it may deem proper to
12 determine whether waste exists or is imminent or whether other facts
13 exist which justify action by the ((committee)) department.

14 **Sec. 825.** RCW 78.52.155 and 1983 c 253 s 9 are each amended to
15 read as follows:

16 (1) The ((committee)) department shall make investigations as
17 necessary to carry out this chapter.

18 (2) The ~~((committee and the))~~ department(~~(, consistent with the~~
19 ~~committee's policies,))~~ shall require:

20 (a) Identification of ownership of oil or gas wells, producing
21 leases, tanks, plants, structures, and facilities for the
22 transportation or refining of oil or gas;

23 (b) The making and filing of well logs, core samples, directional
24 surveys, and reports on well locations, drilling, and production;

25 (c) The testing of oil and gas wells;

26 (d) The drilling, casing, operating, and plugging of wells in such
27 a manner as to prevent the escape of oil or gas out of the casings, or
28 out of one pool into another, the intrusion of water into an oil or gas
29 pool, and the pollution of freshwater supplies by oil, gas, or
30 saltwater and to prevent blowouts, cavings, seepages, and fires;

31 (e) The furnishing of adequate security acceptable to the
32 department, conditioned on the performance of the duty to plug each dry
33 or abandoned well, the duty to reclaim and clean-up well drilling
34 sites, the duty to repair wells causing waste, the duty to comply with
35 all applicable laws and rules adopted by the ((committee)) department,
36 orders of the ~~((committee and the))~~ department, all permit conditions,
37 and this chapter;

1 (f) The operation of wells with efficient gas-oil and water-oil
2 ratios and may fix these ratios and limit production from wells with
3 inefficient gas-oil or water-oil ratios;

4 (g) The production of oil and gas from wells be accurately measured
5 by means and upon standards prescribed by the ((committee)) department,
6 and that every person who produces, sells, purchases, acquires, stores,
7 transports, treats, or processes oil or gas in this state keeps and
8 maintains for a period of five years within this state complete and
9 accurate records thereof, which records shall be available for
10 examination by the ((committee)) department or its agents at all
11 reasonable times, and that every person file with the ((committee))
12 department such reports as it may prescribe with respect to the oil or
13 gas; and

14 (h) Compliance with all applicable laws and rules of this state.

15 (3) The ~~((committee and the department, consistent with the~~
16 ~~committee's policies,))~~ department shall regulate:

17 (a) The drilling, producing, locating, spacing, and plugging of
18 wells and all other operations for the production of oil or gas;

19 (b) The physical, mechanical, and chemical treatment of wells, and
20 the perforation of wells;

21 (c) Operations to increase ultimate recovery such as cycling of
22 gas, the maintenance of pressure, and the introduction of gas, water,
23 or other substances into producing formations;

24 (d) Disposal of saltwater and oil field brines;

25 (e) The storage, processing, and treatment of natural gas and oil
26 produced within this state; and

27 (f) Reclamation and clean-up of all well sites and any areas
28 directly affected by the drilling, production, operation, and plugging
29 of oil and gas wells.

30 (4) The ((committee)) department may limit and prorate oil and gas
31 produced in this state and may restrict future production of oil and
32 gas from any pool in such amounts as will offset and compensate for any
33 production determined by the ((committee)) department to be in excess
34 of or in violation of "oil allowable" or "gas allowable."

35 (5) The ((committee)) department shall classify wells as oil or gas
36 wells for purposes material to the interpretation or enforcement of
37 this chapter.

38 (6) The ~~((committee and the department, consistent with the~~
39 ~~committee's policies,))~~ department shall regulate oil and gas

1 exploration and drilling activities so as to prevent or remedy
2 unreasonable or excessive waste or surface destruction.

3 **Sec. 826.** RCW 78.52.200 and 1983 c 253 s 12 are each amended to
4 read as follows:

5 When necessary to prevent waste, to avoid the drilling of
6 unnecessary wells, or to protect correlative rights including those of
7 royalty owners, the ((committee)) department, upon its own motion or
8 upon application of interested persons, shall establish development
9 units covering any known pool. Development units shall be of uniform
10 size and shape for the entire pool unless the ((committee)) department
11 finds that it must make an exception due to geologic, geographic, or
12 other factors. When necessary, the ((committee)) department may divide
13 any pool into zones and establish development units for each zone,
14 which units may differ in size and shape from those established in any
15 other zone.

16 **Sec. 827.** RCW 78.52.205 and 1983 c 253 s 13 are each amended to
17 read as follows:

18 Within sixty days after the discovery of oil or gas in a pool not
19 then covered by an order of the ((committee)) department, a hearing
20 shall be held and the ((committee)) department shall issue an order
21 prescribing development units for the pool. If sufficient geological
22 or other scientific data from drilling operations or other evidence is
23 not available to determine the maximum area that can be efficiently and
24 economically drained by one well, the ((committee)) department may
25 establish temporary development units to ensure the orderly development
26 of the pool pending availability of the necessary data. A temporary
27 order shall continue in force for a period of not more than twenty-four
28 months at the expiration of which time, or upon the petition of an
29 affected person, the ((committee)) department shall require the
30 presentation of such geological, scientific, drilling, or other
31 evidence as will enable it to determine the proper development units in
32 the pool. During the interim period between the discovery and the
33 issuance of the temporary order, permits shall not be issued for the
34 drilling of direct offsets to a discovery well.

35 **Sec. 828.** RCW 78.52.210 and 1983 c 253 s 14 are each amended to
36 read as follows:

1 (1) The size and the shape of any development units shall be such
2 as will result in the efficient and economical development of the pool
3 as a whole, and the size shall not be smaller than the maximum area
4 that can be efficiently and economically drained by one well as
5 determined by competent geological, geophysical, engineering, drilling,
6 or other scientific testimony, data, and evidence. The ~~((committee))~~
7 department shall fix a development unit of not more than one hundred
8 sixty acres for any pool deemed by the ~~((committee))~~ department to be
9 an oil reservoir, or of six hundred forty acres for any pool deemed by
10 the ~~((committee))~~ department to be a gas reservoir, plus a ten percent
11 tolerance in either case to allow for irregular sections. The
12 ~~((committee))~~ department may, at its discretion, after notice and
13 hearing, establish development units for oil and gas in variance of
14 these limitations when competent geological, geophysical, engineering,
15 drilling, or other scientific testimony, data, and evidence is
16 presented and upon a finding that one well can efficiently and
17 economically drain a larger or smaller area and is justified because of
18 technical, economic, environmental, or safety considerations.

19 (2) The ~~((committee))~~ department may establish development units of
20 different sizes or shapes for different parts of a pool or may grant
21 exceptions to the size or shapes of any development unit or units.
22 Where development units of different sizes or shapes exist in a pool,
23 the ~~((committee))~~ department shall, if necessary, make such adjustments
24 to the allowable production from the well or wells drilled thereon so
25 that each operator in each development unit will have a reasonable
26 opportunity to produce or receive his or her just and equitable share
27 of the production.

28 **Sec. 829.** RCW 78.52.220 and 1983 c 253 s 15 are each amended to
29 read as follows:

30 An order establishing development units for a pool shall specify
31 the size and shape of each area and the location of the permitted well
32 thereon in accordance with a reasonable uniform spacing plan. Upon
33 application and after notice and a hearing, if the ~~((committee))~~
34 department finds that a well drilled at the prescribed location would
35 not produce in paying quantities, or that surface conditions would
36 substantially add to the burden or hazard of drilling such well, the
37 ~~((committee is authorized to))~~ department may enter an order permitting
38 the well to be drilled pursuant to permit at a location other than that

1 prescribed by such development order; however, the ((committee))
2 department shall include in the order suitable provisions to prevent
3 the production from the development unit of more than its just and
4 equitable share of the oil and gas in the pool.

5 **Sec. 830.** RCW 78.52.230 and 1983 c 253 s 16 are each amended to
6 read as follows:

7 An order establishing development units for a pool shall cover all
8 lands determined or believed to be underlaid by such pool, and may be
9 modified by the ((committee)) department from time to time to include
10 additional areas determined to be underlaid by such pool. When the
11 ((committee)) department determines that it is necessary for the
12 prevention of waste, or to avoid the drilling of unnecessary wells, or
13 to protect correlative rights, an order establishing development units
14 in a pool may be modified by the ((committee)) department to increase
15 or decrease the size of development units in the pool or to permit the
16 drilling of additional wells on a reasonably uniform plan in the pool.

17 **Sec. 831.** RCW 78.52.240 and 1983 c 253 s 17 are each amended to
18 read as follows:

19 When two or more separately-owned tracts are embraced within a
20 development unit, or when there are separately owned interests in all
21 or a part of the development unit, then the owners and lessees thereof
22 may pool their interests for the development and operation of the
23 development unit. In the absence of this voluntary pooling, the
24 ((committee)) department, upon the application of any interested
25 person, shall enter an order pooling all interests, including royalty
26 interests, in the development unit for the development and operation
27 thereof. Each such pooling order shall be made after notice and
28 hearing. The applicant or applicants shall have the burden of proving
29 that all reasonable efforts have been made to obtain the consent of, or
30 to reach agreement with, other owners.

31 **Sec. 832.** RCW 78.52.245 and 1983 c 253 s 18 are each amended to
32 read as follows:

33 A pooling order shall be upon terms and conditions that are fair
34 and reasonable and that afford to each owner and royalty owner his or
35 her fair and reasonable share of production. Production shall be
36 allocated as follows:

1 (1) For the purpose of determining the portions of production owned
2 by the persons owning interests in the pooled unit, the production
3 shall be allocated to the respective tracts within the unit in the
4 proportion that the surface acres in each tract bear to the number of
5 surface acres included in the entire unit.

6 (2) Notwithstanding subsection (1) of this section, if the
7 ((committee)) department finds that allocation on a surface acreage
8 basis does not allocate to each tract its fair share, the ((committee))
9 department shall allocate the production so that each tract will
10 receive its fair share.

11 **Sec. 833.** RCW 78.52.250 and 1983 c 253 s 19 are each amended to
12 read as follows:

13 (1) Each such pooling order shall make provision for the drilling
14 and operation of a well on the development unit, and for the payment of
15 the reasonable actual cost thereof by the owners of interests required
16 to pay such costs in the development unit, plus a reasonable charge for
17 supervision and storage facilities. Costs associated with production
18 from the pooled unit shall be allocated in the same manner as is
19 production in RCW 78.52.245. In the event of any dispute as to such
20 costs the ((committee)) department shall determine the proper costs.

21 (2) As to each owner who fails or refuses to agree to bear his or
22 her proportionate share of the costs of the drilling and operation of
23 the well, the order shall provide for reimbursement of those persons
24 paying for the drilling and operation of the well of the nonconsenting
25 owner's share of the costs from, and only from, production from the
26 unit representing that person's interest, excluding royalty or other
27 interests not obligated to pay any part of the cost thereof. The
28 ((committee)) department may provide that the consenting owners shall
29 own and be entitled to receive all production from the well after
30 payment of the royalty as provided in the lease, if any, applicable to
31 each tract or interest, and obligations payable from production, until
32 the consenting owners have been paid the amount due under the terms of
33 the pooling order or order settling any dispute.

34 The order shall determine the interest of each owner in the unit
35 and shall provide that each consenting owner is entitled to receive,
36 subject to royalty or similar obligations, the share of the production
37 of the well applicable to the owner's interest in the unit, and, unless
38 the owner has agreed otherwise, his or her proportionate part of the

1 nonconsenting owner's share of the production until costs are recovered
2 as provided in this subsection. Each nonconsenting owner is entitled
3 to receive, subject to royalty or similar obligations, the share of
4 production from the well applicable to the owner's interest in the unit
5 after the consenting owners have recovered from the nonconsenting
6 owner's share of production the following:

7 (a) In respect to every such well, one hundred percent of the
8 nonconsenting owner's share of the cost of surface equipment beyond the
9 wellhead connections, including but not limited to, stock tanks,
10 separators, treaters, pumping equipment, and piping, plus one hundred
11 percent of the nonconsenting owner's share of the cost of operation of
12 the well, commencing with first production and continuing until the
13 consenting owners have recovered these costs, with the intent that the
14 nonconsenting owner's share of these costs and equipment will be that
15 interest which would have been chargeable to the nonconsenting owner
16 had he or she initially agreed to pay his or her share of the costs of
17 the well from the beginning of the operation;

18 (b) One hundred fifty percent of that portion of the costs and
19 expenses of staking the location, well site preparation, rights of way,
20 rigging-up, drilling, reworking, deepening or plugging back, testing,
21 and completing, after deducting any cash contributions received by the
22 consenting owners, and also one hundred fifty percent of that portion
23 of the cost of equipment in the well, up to and including the wellhead
24 connections; and

25 (c) If there is a dispute regarding the costs, the ((committee))
26 department shall determine the proper costs and their allocation among
27 working interest owners after due notice to interested parties and a
28 hearing on the costs.

29 (3) The operator of a well under a pooling order in which there are
30 nonconsenting owners shall furnish the nonconsenting owners with
31 monthly statements of all costs incurred, together with the quantity of
32 oil or gas produced, and the amount of proceeds realized from the sale
33 of this production during the preceding month. If and when the
34 consenting owners recover from a nonconsenting owner's relinquished
35 interest the amounts provided for in subsection (2) of this section,
36 the relinquished interest of the nonconsenting owner shall
37 automatically revert to him or her, and the nonconsenting owner shall
38 own the same interest in the well and the production from it and be

1 liable for the further costs of the operation as if he or she had
2 participated in the initial drilling and operation.

3 (4) A nonconsenting owner of a tract in a development unit which is
4 not subject to any lease or other contract for the development thereof
5 for oil and gas shall elect within fifteen days of the issuance of the
6 pooling order or such further time as the ((committee)) department
7 shall, in the order, allow:

8 (a) To be treated as a nonconsenting owner as provided in
9 subsections (2) and (3) of this section and is deemed to have a basic
10 landowners' royalty of one-eighth, or twelve and one-half percent, of
11 the production allocated to the tract, unless a higher basic royalty
12 has been established in the development unit. If a higher royalty has
13 been established, then the nonconsenting owner of a nonleased tract
14 shall receive the higher basic royalty. This presumed royalty shall
15 exist only during the time that costs and expenses are being recovered
16 under subsection (2) of this section, and is intended to assure that
17 the owner of a nonleased tract receive a basic royalty free of all
18 costs at all times. Notwithstanding anything herein to the contrary,
19 the owner shall at all times retain his or her entire ownership of the
20 property, including the right to execute an oil and gas lease on any
21 terms negotiated, and be entitled to all production subject to
22 subsection (2) of this section; or

23 (b) To grant a lease to the operator at the current fair market
24 value for that interest for comparable leases or interests at the time
25 of the commencement of drilling; or

26 (c) To pay his or her pro rata share of the costs of the well or
27 wells in the development unit and receive his or her pro rata share of
28 production, if any.

29 A nonconsenting owner who does not make an election as provided in
30 this subsection is deemed to have elected to be treated under (a) of
31 this subsection.

32 **Sec. 834.** RCW 78.52.257 and 1983 c 253 s 22 are each amended to
33 read as follows:

34 (1) An order pooling a development unit shall automatically
35 dissolve:

36 (a) One year after its effective date if there has been no
37 production of commercial quantities or drilling operations on lands
38 within the unit;

(b) Six months after completion of a dry hole on the unit; or
(c) Six months after cessation of production of commercial quantities from the unit, unless, prior to the expiration of such six-month period, the operator shall, in good faith, commence drilling or reworking operations in an effort to restore production.

(2) Upon the termination of a lease pooled by order of the ~~((committee))~~ department under authority granted in this chapter, interests covered by the lease are considered pooled as unleased mineral interests.

(3) Any party to a pooling order is entitled, after due notice to all parties, to a hearing to modify or terminate a previously entered pooling order upon presenting new evidence showing that the previous determination of reservoir conclusions are substantially incorrect.

(4) The ~~((committee, in its discretion))~~ department, after notice and hearing, may grant additional time, for good cause shown, before a pooling order is automatically dissolved as provided in subsection (1) of this section. In no case may such an extension be longer than six months.

Sec. 835. RCW 78.52.260 and 1951 c 146 s 28 are each amended to read as follows:

Whenever the ~~((committee shall))~~ department requires the making and filing of well logs, directional surveys, or reports on the drilling of, subsurface conditions found in, or reports with respect to the substance produced, or capable of being produced from, a "wildcat" or "exploratory" well, as those terms are used in the petroleum industry, such logs, surveys, reports, or information shall be kept confidential by the ~~((committee))~~ department for a period of one year, if at the time of filing such logs, surveys, reports, or other information, the owner, lessee, or operator of such well requests that such information be kept confidential: PROVIDED, HOWEVER, That the ~~((committee shall have the right to))~~ department may divulge or use such information in a public hearing or suit when it is necessary for the enforcement of the provisions of this chapter or any rule, regulation, or order made hereunder.

Sec. 836. RCW 78.52.270 and 1951 c 146 s 29 are each amended to read as follows:

1 Whenever the total amount of oil which all of the pools in this
2 state can currently produce in accordance with good operating
3 practices, exceeds the amount reasonably required to meet the
4 reasonable market demand, the ((committee)) department shall limit the
5 oil which may be currently produced in this state to an amount,
6 designated the "oil allowable(())." The ((committee)) department
7 shall then prorate this "oil allowable" among the pools on a reasonable
8 basis, avoiding undue discrimination among the pools, and so that waste
9 will be prevented. In determining the "oil allowable(()), and in
10 prorating such "oil allowable" among the pools in the state, the
11 ((committee)) department shall take into account the producing
12 conditions and other relevant facts with respect to such pools,
13 including the separate needs for oil and gas, and separate needs for
14 oil of particular kinds or qualities, and shall formulate rules setting
15 forth standards or a program for the determination of the "oil
16 allowable(()), and shall prorate the "oil allowable" in accordance
17 with such standards or program, and where conditions in one pool or
18 area are substantially similar to those in another pool or area, then
19 the same standards or program shall be applied to such pools or areas
20 so that as far as practicable a uniform program will be followed:
21 PROVIDED, HOWEVER, That if the amount prorated to a pool as its share
22 of the "oil allowable" is in excess of the amount which the pool can
23 efficiently produce currently, then the ((committee)) department shall
24 prorate to such pool the maximum amount which can be efficiently
25 produced currently without waste.

26 **Sec. 837.** RCW 78.52.280 and 1951 c 146 s 30 are each amended to
27 read as follows:

28 The ((committee)) department shall not be required to determine the
29 reasonable market demand applicable to any single pool of oil except in
30 relation to all pools producing oil of similar kind and quality and in
31 relation to the reasonable market demand. The ((committee)) department
32 shall prorate the "allowable" in such manner as will prevent undue
33 discrimination against any pool or area in favor of another or others
34 resulting from selective buying or nomination by purchasers.

35 **Sec. 838.** RCW 78.52.290 and 1951 c 146 s 31 are each amended to
36 read as follows:

1 Whenever the total amount of gas which all of the pools in this
2 state can currently produce in accordance with good operating practice
3 exceeds the amount reasonably required to meet the reasonable market
4 demand, the ((committee)) department shall limit the gas which may be
5 currently produced to an amount, designated as the "gas
6 allowable((^u)),_" which will not exceed the reasonable market demand for
7 gas. The ((committee)) department shall then prorate the "gas
8 allowable" among the pools on a reasonable basis, avoiding undue
9 discrimination among the pools, and so that waste will be prevented,
10 giving due consideration to location of pipe lines, cost of
11 interconnecting such pipe lines, and other pertinent factors, and
12 insofar as applicable, the provisions of RCW 78.52.270 shall be
13 followed in determining the "gas allowable" and in prorating such "gas
14 allowable" among the pools therein: PROVIDED, HOWEVER, That in
15 determining the reasonable market demand for gas as between pools, the
16 ((committee)) department shall give due regard to the fact that gas
17 produced from oil pools is to be regulated in a manner which will
18 protect the reasonable use of gas energy for oil production and promote
19 the most or maximum efficient recovery of oil from such pools.

20 **Sec. 839.** RCW 78.52.300 and 1951 c 146 s 32 are each amended to
21 read as follows:

22 Whenever the total amount of gas which may be currently produced
23 from all of the pools in this state has not been limited as hereinabove
24 provided, and the available production from any one pool containing gas
25 only is in excess of the reasonable market demand or available
26 transportation facilities for gas from such pool, the ((committee))
27 department shall limit the production of gas from such pool to that
28 amount which does not exceed the reasonable market demand or
29 transportation facilities for gas from such pool.

30 **Sec. 840.** RCW 78.52.310 and 1951 c 146 s 33 are each amended to
31 read as follows:

32 Whenever the ((committee)) department limits the total amount of
33 oil or gas which may be produced from any pool to an amount less than
34 that which the pool could produce if no restrictions were imposed
35 (whether incidental to, or without, a limitation of the total amount of
36 oil which may be produced in the state) the ((committee)) department
37 shall prorate the allowable production for the pool among the producers

1 in the pool on a reasonable basis, so that each producer will have
2 opportunity to produce or receive his or her just and equitable share,
3 subject to the reasonable necessities for the prevention of waste,
4 giving where reasonable, under the circumstances, to each pool with
5 small wells of settled production, allowable production which prevents
6 the premature abandonment of wells in the pool.

7 All orders establishing the "oil allowable" and "gas allowable" for
8 this state, and all orders prorating such allowables as herein
9 provided, and any changes thereof, for any month or period shall be
10 issued by the (~~committee~~) department on or before the fifteenth day
11 of the month preceding the month for which such orders are to be
12 effective, and such orders shall be immediately published in some
13 newspaper of general circulation printed in Olympia, Washington. No
14 orders establishing such allowables, or prorating such allowables, or
15 any changes thereof, shall be issued without first having a hearing,
16 after notice, as provided in this chapter: PROVIDED, HOWEVER, When in
17 the judgment of the (~~committee~~) department, an emergency requiring
18 immediate action is found to exist, the (~~committee is authorized to~~)
19 department may issue an emergency order under this section which shall
20 have the same effect and validity as if a hearing with respect to the
21 same had been held after due notice. The emergency order permitted by
22 this (~~subsection~~) section shall remain in force no longer than thirty
23 days, and in any event it shall expire when the order made after due
24 notice and hearing with respect to the subject matter of the emergency
25 order becomes effective.

26 **Sec. 841.** RCW 78.52.320 and 1951 c 146 s 34 are each amended to
27 read as follows:

28 Whenever the production of oil or gas in this state or any pool
29 therein is limited and the "oil allowable" or "gas allowable" is
30 established and prorated by the (~~committee~~) department as provided in
31 RCW 78.52.310, no person shall thereafter produce from any well, pool,
32 lease, or property more than the production which is prorated thereto.

33 **Sec. 842.** RCW 78.52.330 and 1951 c 146 s 35 are each amended to
34 read as follows:

35 To assist in the development of oil and gas in this state and to
36 further the purposes of this chapter, the persons owning interests in
37 separate tracts of land, may validly agree to integrate their interests

1 and manage, operate, and develop their land as a unit, subject to the
2 approval of the ~~((committee))~~ department.

3 **Sec. 843.** RCW 78.52.335 and 1983 c 253 s 23 are each amended to
4 read as follows:

5 (1) The ~~((committee))~~ department shall upon the application of any
6 interested person, or upon its own motion, hold a hearing to consider
7 the need for the operation as a unit of one or more pools or parts of
8 them in a field.

9 (2) The ~~((committee shall have the authority to))~~ department may
10 enter an order providing for the unit operations if ~~((the committee))~~
11 it finds that:

12 (a) The unit operations are necessary for secondary recovery or
13 enhanced recovery purposes. For purposes of this chapter secondary or
14 enhanced recovery means that oil or gas or both are recovered by any
15 method, artificial flowing or pumping, that may be employed to produce
16 oil or gas, or both, through the joint use of two or more wells with an
17 application of energy extrinsic to the pool or pools. This includes
18 pressuring, cycling, pressure maintenance, or injections into the pool
19 or pools of a substance or form of energy: PROVIDED, That this does
20 not include the injection in a well of a substance or form of energy
21 for the sole purpose of (i) aiding in the lifting of fluids in the
22 well, or (ii) stimulation of the reservoir at or near the well by
23 mechanical, chemical, thermal, or explosive means;

24 (b) The unit operations will protect correlative rights;

25 (c) The operations will increase the ultimate recovery of oil or
26 gas, or will prevent waste, or will prevent the drilling of unnecessary
27 wells; and

28 (d) The value of the estimated additional recovery of oil and/or
29 gas exceeds the estimated additional cost incident to conducting these
30 operations.

31 (3) The ~~((committee shall also have the authority to))~~ department
32 may also enter an order providing for unit operations, after notice and
33 hearing, only if the ~~((committee))~~ department finds that there is clear
34 and convincing evidence that all of the following conditions are met:

35 (a) In the absence of unitization, the ultimate recovery of oil or
36 gas, or both, will be substantially decreased because normal production
37 techniques and methods are not feasible and will not result in the
38 maximum efficient and economic recovery of oil or gas, or both;

1 (b) The unit operations will protect correlative rights;

2 (c) The unit operations will prevent waste, or will prevent the
3 drilling of unnecessary wells;

4 (d) There has been a discovery of a commercial oil or gas field;
5 and

6 (e) There has been sufficient exploration, drilling activity, and
7 development to properly define the one or more pools or parts of them
8 in a field proposed to be unitized.

9 (4) Notwithstanding any of the above, nothing in this chapter may
10 be construed to prevent the voluntary agreement of all interested
11 persons to any plan of unit operations. The ~~((committee))~~ department
12 shall approve operations upon making a finding consistent with
13 subsection~~((s))~~ (2) (b) and (c) of this section.

14 (5) The order shall be upon terms and conditions that are fair and
15 reasonable and shall prescribe a plan for unit operations that
16 includes:

17 (a) A description of the pool or pools or parts thereof to be so
18 operated, termed the unitized area;

19 (b) A statement of the nature of the operations contemplated;

20 (c) An allocation of production and costs to the separately-owned
21 tracts in the unitized area. The allocation shall be in accord with
22 the agreement, if any, of the interested parties. If there is no
23 agreement, production shall be allocated in a manner calculated to
24 ensure that each owner's correlative rights are protected, and each
25 separately-owned tract or combination of tracts receives its fair and
26 reasonable share of production. Costs shall be allocated on a fair and
27 reasonable basis;

28 (d) A provision, if necessary, prescribing fair, reasonable, and
29 equitable terms and conditions as to time and rate of interest for
30 carrying or otherwise financing any person who is unable to promptly
31 meet his or her financial obligations in connection with the unit, such
32 carrying and interest charges to be paid as provided by the
33 ~~((committee))~~ department from the person's prorated share of
34 production;

35 (e) A provision for the supervision and conduct of the unit
36 operations, in respect to which each owner shall have a vote with a
37 value corresponding to the percentage of the costs of unit operations
38 chargeable against the owner's interest;

1 (f) The time when the unit operations shall commence, the timetable
2 for development, and the manner and circumstances under which the unit
3 operations shall terminate; and

4 (g) Additional provisions which are found to be appropriate for
5 carrying out the unit operations and for the protection of correlative
6 rights.

7 (6) No order of the ((committee)) department providing for unit
8 operations may become effective until:

9 (a) The plan for unit operations approved by the ((committee))
10 department has been approved in writing by those persons who, under the
11 ((committee's)) department's order, will be required to pay at least
12 seventy-five percent of the costs of unit operations;

13 (b) The plan has been approved in writing by those persons such as
14 royalty owners, overriding royalty owners, and production payment
15 owners, who own at least seventy-five percent of the production or
16 proceeds thereof that will be credited to interests that are free of
17 costs; and

18 (c) The ((committee)) department has made a finding, either in the
19 order providing for unit operations or in a supplemental order, that
20 the plan for unit operations has been so approved. If the plan for
21 unit operations has not been so approved at the time the order
22 providing for unit operations is made, the ((committee)) department
23 shall upon application and notice hold such supplemental hearings as
24 may be required to determine if and when the plan for unit operations
25 has been so approved. If the persons owning required percentages of
26 interest in the unitized area do not approve the plan for unit
27 operations within a period of six months from the date on which the
28 order providing for unit operations is made, or within such additional
29 period or periods of time as the ((committee)) department prescribes,
30 the order will become unenforceable and shall be vacated by the
31 ((committee)) department.

32 (7) An order providing for unit operations may be amended by an
33 order made by the ((committee)) department in the same manner and
34 subject to the same conditions as an original order, except as provided
35 in subsection (8) of this section, providing for unit operations, but
36 (a) if such an amendment affects only the rights and interests of the
37 owners, the approval of the amendment by those persons who own
38 interests that are free of costs is not required, and (b) no such
39 amending order may change the percentage for the allocation of oil and

1 gas as established for any separately-owned tract or combination of
2 tracts by the original order, except with the consent of all persons
3 owning oil and gas rights in the tract, and no such order may change
4 the percentage for the allocation of cost as established for any
5 separately-owned tract or combination of tracts by the original order,
6 except with the consent of all persons owning an interest in the tract
7 or combination of tracts. An amendment that provides for the expansion
8 of the unit area shall comply with subsection (8) of this section.

9 (8) The ((committee)) department, by order, may provide for the
10 unit operation of a reservoir or reservoirs or parts thereof that
11 include a unitized area established by a previous order of the
12 ((committee)) department. The order, in providing for the allocation
13 of unit production, shall first treat the unitized area previously
14 established as a single tract and the portion of the new unit
15 production allocated thereto shall then be allocated among the
16 separately-owned tracts included in the previously established unit
17 area in the same proportions as those specified in the previous order.

18 (9) After the date designated by the ((committee)) department the
19 unit plan shall be effective, oil and gas leases within the unit area,
20 or other contracts pertaining to the development thereof, shall be
21 changed only to the extent necessary to meet the requirements of the
22 unit plan, and otherwise shall remain in full force. Operations
23 carried on under and in accordance with the unit plan shall be regarded
24 and considered as fulfillment of and compliance with all of the
25 provisions, covenants, and conditions, expressed or implied, of the
26 several oil and gas leases upon lands within the unit area, or other
27 contracts pertaining to the development thereof, insofar as the leases
28 or other contracts may relate to the pool or field subject to the unit
29 plan. The amount of production apportioned and allocated under the
30 unit plan to each separately-owned tract within the unit area, and only
31 that amount, regardless of the location of the well within the unit
32 area from which it may be produced, and regardless of whether it is
33 more or less than the amount of production from the well, if any, on
34 each separately-owned tract, shall for all purposes be regarded as
35 production from the separately-owned tract. Lessees shall not be
36 obligated to pay royalties or make other payments, required by the oil
37 and gas leases or other contracts affecting each such separately-owned
38 tract, on production in excess of that amount apportioned and allocated
39 to the separately-owned tract under the unit plan.

1 (10) The portion of the unit production allocated to any tract and
2 the proceeds from its sale are the property and income of the several
3 persons to whom, or to whose credit, the portion and proceeds are
4 allocated or payable under the order providing for unit operations.

5 (11) No division order or other contract relating to the sale,
6 purchase, or production from a separately-owned tract or combination of
7 tracts may be terminated by the order providing for unit operations but
8 shall remain in force and shall apply to oil and gas allocated to the
9 tract until terminated by an amended division order or contract in
10 accordance with the order.

11 (12) Except to the extent that parties affected so agree, an order
12 providing for unit operations shall not be construed to result in a
13 transfer of all or any part of the title of any person to the oil and
14 gas rights in any tract in the unit area. All property, whether real
15 or personal, that may be acquired in the conduct of unit operations
16 hereunder shall be acquired for the account of the owners within the
17 unit area, and shall be the property of those owners in the proportion
18 that the expenses of unit operations are charged.

19 (13) After the date designated by the order of the ((committee))
20 department that a unit plan shall become effective, the designation of
21 one or more unit operators shall be by vote of the lessees of land in
22 the unit area, in a manner to be provided in the unit plan, and any
23 operations in conflict with such unit plan shall be unlawful and are
24 prohibited.

25 (14) A certified copy of any order of the ((committee)) department
26 entered under this section is entitled to be recorded in the auditor's
27 office in the county or counties wherein all or any portion of the unit
28 area is located and, if recorded, constitute notice thereof to all
29 persons. A copy of this order shall be mailed by certified mail to all
30 interested persons.

31 (15) No order for unitization may be construed to allow the
32 drilling of a well on a tract within the unit which is not leased or
33 under contract for oil and gas exploration or production.

34 **Sec. 844.** RCW 78.52.365 and 1983 c 253 s 26 are each amended to
35 read as follows:

36 The ((committee)) department may administer and enforce RCW
37 78.52.345 and 78.52.355 in accordance with the procedures in this

1 chapter for its enforcement and with the rules and orders of the
2 ((committee)) department.

3 **Sec. 845.** RCW 78.52.460 and 1951 c 146 s 49 are each amended to
4 read as follows:

5 No plan for the operation of a field or pool of oil or gas as a
6 unit, either whole or in part, created or approved by the ((committee
7 hereunder shall)) department under this chapter may be held to violate
8 any of the statutes of this state prohibiting monopolies or acts,
9 arrangements, agreements, contracts, combinations, or conspiracies in
10 restraint of trade or commerce.

11 **Sec. 846.** RCW 78.52.463 and 1989 c 175 s 167 are each amended to
12 read as follows:

13 (1) Any operation or activity that is in violation of applicable
14 laws, rules, orders, or permit conditions is subject to suspension by
15 order of the ((committee)) department. The order may suspend the
16 operations authorized in the permit in whole or in part. The order may
17 be issued only after the ((committee)) department has first notified
18 the operator or owner of the violations and the operator or owner has
19 failed to comply with the directions contained in the notification
20 within ten days of service of the notice: PROVIDED, That the
21 ((committee)) department may issue the suspension order immediately
22 without notice if the violations are or may cause substantial harm to
23 adjacent property, persons, or public resources, or has or may result
24 in the pollution of waters in violation of any state or federal law or
25 rule. A suspension shall remain in effect until the violations are
26 corrected or other directives are complied with unless declared invalid
27 by the ((committee)) department after hearing or an appeal. The
28 suspension order and notification, where applicable, shall specify the
29 violations and the actions required to be undertaken to be in
30 compliance with such laws, rules, orders, or permit conditions. The
31 order and notification may also require remedial actions to be
32 undertaken to restore, prevent, or correct activities or conditions
33 which have resulted from the violations. The order and notification
34 may be directed to the operator or owner or both.

35 (2) The suspension order constitutes a final and binding order
36 unless the owner or operator to whom the order is directed requests a
37 hearing before the ((committee)) department within fifteen days after

1 service of the order. Such a request shall not in itself stay or
2 suspend the order and the operator or owner shall comply with the order
3 immediately upon service. The ~~((committee or its chairman have the~~
4 ~~authority to))~~ department may stay or suspend in whole or in part the
5 suspension order pending a hearing if so requested. The hearing shall
6 constitute an adjudicative proceeding under chapter 34.05 RCW, the
7 Administrative Procedure Act.

8 **Sec. 847.** RCW 78.52.467 and 1983 c 253 s 30 are each amended to
9 read as follows:

10 (1) The sale, purchase, acquisition, transportation, refining,
11 processing, or handling of illegal oil, gas, or product is prohibited.
12 However, no penalty by way of fine may be imposed upon a person who
13 sells, purchases, acquires, transports, refines, processes, or handles
14 illegal oil, gas, or product unless (a) the person knows, or is put on
15 notice of, facts indicating that illegal oil, illegal gas, or illegal
16 product is involved, or (b) the person fails to obtain a certificate of
17 clearance with respect to the oil, gas, or product if prescribed by
18 rule or order of the ~~((committee))~~ department, or fails to follow any
19 other method prescribed by an order of the ~~((committee))~~ department for
20 the identification of the oil, gas, or product.

21 (2) Illegal oil, illegal gas, and illegal product are declared to
22 be contraband and are subject to seizure and sale as provided in this
23 section. Seizure and sale shall be in addition to all other remedies
24 and penalties provided in this chapter for violations relating to
25 illegal oil, illegal gas, or illegal product. If the ~~((committee))~~
26 department believes that any oil, gas, or product is illegal, the
27 ~~((committee))~~ department acting through the attorney general, shall
28 bring a civil action in rem in the superior court of the county in
29 which the oil, gas, or product is found, to seize and sell the same, or
30 the ~~((committee))~~ department may include such an action in rem in any
31 suit brought for an injunction or penalty involving illegal oil,
32 illegal gas, or illegal product. A person claiming an interest in oil,
33 gas, or product affected by an action in rem has the right to intervene
34 as an interested party.

35 (3) Actions for the seizure and sale of illegal oil, illegal gas,
36 or illegal product shall be strictly in rem and shall proceed in the
37 name of the state as plaintiff against the oil, gas, or product as
38 defendant. No bond or similar undertaking may be required of the

1 plaintiff. Upon the filing of the petition for seizure and sale, the
2 clerk of the court shall issue a summons, with a copy of the petition
3 attached thereto, directed to the sheriff of the county or to another
4 officer or person whom the court may designate, for service upon all
5 persons having or claiming any interest in the oil, gas, or product
6 described in the petition. The summons shall command these persons to
7 appear and answer within twenty days after the issuance and service of
8 the summons. These persons need not be named or otherwise identified
9 in the summons, and the summons shall be served by posting a copy of
10 the summons, with a copy of the petition attached, on any public
11 bulletin board or at the courthouse of a county where the oil, gas, or
12 product involved is located, and by posting another copy at or near the
13 place where the oil, gas, or product is located. The posting
14 constitutes notice of the action to all persons having or claiming any
15 interest in the oil, gas, or product described in the petition. In
16 addition, if the court, on a properly verified petition, or affidavit
17 or affidavits, or oral testimony, finds that grounds for seizure and
18 for sale exist, the court shall issue an immediate order of seizure,
19 describing the oil, gas, or product to be seized, and directing the
20 sheriff of the county to take the oil, gas, or product into the
21 sheriff's actual or constructive custody and to hold the same subject
22 to further orders of the court. The court, in the order of seizure,
23 may direct the sheriff to deliver the oil, gas, or product seized by
24 him or her under the order to a court-appointed agent. The agent shall
25 give bond in an amount and with such surety as the court may direct,
26 conditioned upon compliance with the orders of the court concerning the
27 custody and disposition of the oil, gas, or product.

28 (4) Any person having an interest in oil, gas, or product described
29 in order of seizure and contesting the right of the state to seize and
30 sell the oil, gas, or product may obtain its release prior to sale upon
31 furnishing to the sheriff a bond approved by the court. The bond shall
32 be in an amount equal to one hundred fifty percent of the market value
33 of the oil, gas, or product to be released and shall be conditioned
34 upon either redelivery to the sheriff of the released commodity or
35 payment to the sheriff of its market value, if and when ordered by the
36 court, and upon full compliance with further orders of the court.

37 (5) If the court, after a hearing upon a petition for the seizure
38 and sale of oil, gas, or product, finds that the oil, gas, or product
39 is contraband, the court shall order its sale by the sheriff in the

1 same manner and upon the same notice of sale as provided by law for the
2 sale of personal property on execution of judgment entered in a civil
3 action, except that the court may order that the oil, gas, or product
4 be sold in specified lots or portions and at specified intervals. Upon
5 sale, title to the oil, gas, or product sold shall vest in the
6 purchaser free of all claims, and it shall be legal oil, legal gas, or
7 legal product in the hands of the purchaser.

8 (6) All proceeds, less costs of suit and expenses of sale, which
9 are derived from the sale of illegal oil, illegal gas, or illegal
10 product, and all amounts paid as penalties provided for by this
11 chapter, shall be paid into the state treasury for the use of the
12 ~~((committee))~~ department in defraying its expenses in the same manner
13 as other funds provided by law for the use of the ~~((committee))~~
14 department.

15 **Sec. 848.** RCW 78.52.470 and 1989 c 175 s 168 are each amended to
16 read as follows:

17 Any person adversely affected by any order of the ~~((committee))~~
18 department may, within thirty days from the effective date of such
19 order, apply for a hearing with respect to any matter determined
20 therein. No cause for action arising out of any order of the
21 ~~((committee—shall))~~ department accrues in any court to any person
22 unless the person makes application for a hearing as ~~((herein))~~
23 provided in this section. Such application shall set forth
24 specifically the ground on which the applicant considers the order to
25 be unlawful or unreasonable. No party shall, in any court, urge or
26 rely upon any ground not set forth in said application. An order made
27 in conformity to a decision resulting from a hearing which abrogates,
28 changes, or modifies the original order shall have the same force and
29 effect as an original. Such hearing shall constitute an adjudicative
30 proceeding under chapter 34.05 RCW, the Administrative Procedure Act,
31 and shall be conducted in accordance with its provisions.

32 **Sec. 849.** RCW 78.52.480 and 1983 c 253 s 28 are each amended to
33 read as follows:

34 In proceedings for review of an order or decision of the
35 ~~((committee))~~ department, the ~~((committee))~~ department shall be a party
36 to the proceedings and shall have all rights and privileges granted by
37 this chapter to any other party to such proceedings.

1 **Sec. 850.** RCW 78.52.490 and 1983 c 253 s 32 are each amended to
2 read as follows:

3 Within thirty days after the application for a hearing is denied,
4 or if the application is granted, then within thirty days after the
5 rendition of the decision on the hearing, the applicant may apply to
6 the superior court, at the petitioner's option, for (a) Thurston
7 county, (b) the county of petitioner's residence or place of business,
8 or (c) in any county where the property or property rights owned by the
9 petitioner is located for a review of such rule, regulation, order, or
10 decision. The application for review shall be filed in the office of
11 the clerk of the superior court of Thurston county and shall
12 specifically state the grounds for review upon which the applicant
13 relies and shall designate the rule, regulation, order, or decision
14 sought to be reviewed. The applicant shall immediately serve a
15 certified copy of said application upon the (~~executive secretary of~~
16 ~~the committee~~) commissioner of public lands who shall immediately
17 notify all parties who appeared in the proceedings before the
18 (~~committee~~) department that such application for review has been
19 filed. In the event the court determines the review is solely for the
20 purpose of determining the validity of a rule or regulation of general
21 applicability the court shall transfer venue to Thurston county for a
22 review of such rule or regulation in the manner provided for in RCW
23 (~~(34.05.538)~~) 34.05.570.

24 **Sec. 851.** RCW 78.52.530 and 1951 c 146 s 56 are each amended to
25 read as follows:

26 Whenever it shall appear that any person is violating any
27 provisions of this chapter, or any rule, regulation, or order made by
28 the (~~committee hereunder~~) department under this chapter, and if the
29 (~~committee~~) department cannot, without litigation, effectively
30 prevent further violation, the (~~committee~~) department may bring suit
31 in the name of the state against such person in the superior court in
32 the county of the residence of the defendant, or in the county of the
33 residence of any defendant if there be more than one defendant, or in
34 the county where the violation is alleged to have occurred, to restrain
35 such person from continuing such violation. In such suit the
36 (~~committee~~) department may without bond obtain injunctions
37 prohibitory and mandatory, including temporary restraining orders and
38 preliminary injunctions, as the facts may warrant.

1 **Sec. 852.** RCW 78.52.540 and 1951 c 146 s 57 are each amended to
2 read as follows:

3 (~~In the event the committee should~~) If the department fails to
4 bring suit within thirty days to enjoin any apparent violation of this
5 chapter, or of any rule, regulation, or order made by the (~~committee~~
6 ~~hereunder~~) department under this chapter, then any person or party in
7 interest adversely affected by such violation, who has requested the
8 (~~committee~~) department in writing to sue, may, to prevent any or
9 further violation, bring suit for that purpose in the superior court of
10 any county where the (~~committee~~) department could have instituted
11 such suit. If, in such suit, the court should hold that injunctive
12 relief should be granted, then the state shall be made a party and
13 shall be substituted for the person who brought the suit, and the
14 injunction shall be issued as if the state had at all times been the
15 complainant.

16 **OIL SPILL CONTINGENCY PLAN CORPORATION**

17 NEW SECTION. **Sec. 853.** A new section is added to chapter 88.46
18 RCW to read as follows:

19 A nonprofit corporation established for the sole purpose of
20 providing contingency plan coverage for any vessel in compliance with
21 RCW 88.46.060 is entitled to liability protection as provided in this
22 section. Obligations incurred by the corporation and any other
23 liabilities or claims against the corporation may be enforced only
24 against the assets of the corporation, and no liability for the debts
25 or actions of the corporation exists against a director, officer,
26 member, employee, incident commander, agent, contractor, or
27 subcontractor of the corporation in his or her individual or
28 representative capacity. Except as otherwise provided in this chapter,
29 neither the directors, officers, members, employees, incident
30 commander, or agents of the corporation, nor the business entities by
31 whom they are regularly employed may be held individually responsible
32 for discretionary decisions, errors in judgment, mistakes, or other
33 acts, either of commission or omission, that are directly related to
34 the operation or implementation of contingency plans, other than for
35 acts of gross negligence or willful or wanton misconduct. The
36 corporation may insure and defend and indemnify the directors,
37 officers, members, employees, incident commanders, and agents to the

1 extent permitted by chapters 23B.08 and 24.03 RCW. This section does
2 not alter or limit the responsibility or liability of any person for
3 the operation of a motor vehicle.

4 **MARINE SAFETY COMMITTEES**

5 NEW SECTION. **Sec. 854.** A new section is added to chapter 88.46
6 RCW to read as follows:

7 The administrator may appoint ad hoc, advisory marine safety
8 committees to solicit recommendations and technical advice concerning
9 vessel traffic safety. The office may implement recommendations made
10 in regional marine safety plans that are approved by the office and
11 over which the office has authority. If federal authority or action is
12 required to implement the recommendations, the office may petition the
13 appropriate agency or the Congress.

14 **SCIENTIFIC ADVISORY BOARD FOR THE OIL SPILL COMPENSATION SCHEDULE**

15 **Sec. 855.** RCW 90.48.366 and 1992 c 73 s 28 are each amended to
16 read as follows:

17 By July 1, 1991, the department, in consultation with the
18 departments of fisheries, wildlife, and natural resources, and the
19 parks and recreation commission, shall adopt rules establishing a
20 compensation schedule for the discharge of oil in violation of this
21 chapter and chapter 90.56 RCW. (~~The department shall establish a~~
22 ~~scientific advisory board to assist in establishing the compensation~~
23 ~~schedule.))~~ The amount of compensation assessed under this schedule
24 shall be no less than one dollar per gallon of oil spilled and no
25 greater than fifty dollars per gallon of oil spilled. The compensation
26 schedule shall reflect adequate compensation for unquantifiable damages
27 or for damages not quantifiable at reasonable cost for any adverse
28 environmental, recreational, aesthetic, or other effects caused by the
29 spill and shall take into account:

30 (1) Characteristics of any oil spilled, such as toxicity,
31 dispersibility, solubility, and persistence, that may affect the
32 severity of the effects on the receiving environment, living organisms,
33 and recreational and aesthetic resources;

34 (2) The sensitivity of the affected area as determined by such
35 factors as: (a) The location of the spill; (b) habitat and living

1 resource sensitivity; (c) seasonal distribution or sensitivity of
2 living resources; (d) areas of recreational use or aesthetic
3 importance; (e) the proximity of the spill to important habitats for
4 birds, aquatic mammals, fish, or to species listed as threatened or
5 endangered under state or federal law; (f) significant archaeological
6 resources as determined by the office of archaeology and historic
7 preservation; and (g) other areas of special ecological or recreational
8 importance, as determined by the department. If the department has
9 adopted rules for a compensation table prior to July 1, 1992, the
10 sensitivity of significant archaeological resources shall only be
11 included among factors to be used in the compensation table when the
12 department revises the rules for the compensation table after July 1,
13 1992; and

14 (3) Actions taken by the party who spilled oil or any party liable
15 for the spill that: (a) Demonstrate a recognition and affirmative
16 acceptance of responsibility for the spill, such as the immediate
17 removal of oil and the amount of oil removed from the environment; or
18 (b) enhance or impede the detection of the spill, the determination of
19 the quantity of oil spilled, or the extent of damage, including the
20 unauthorized removal of evidence such as injured fish or wildlife.

21 **TASK FORCE ON STATE-WIDE EVALUATION OF IRRIGATED AREAS**

22 **Sec. 856.** RCW 90.54.190 and 1989 c 348 s 11 are each amended to
23 read as follows:

24 ~~(1) ((The department of ecology may establish a task force to~~
25 ~~assist in a state wide evaluation of irrigated areas, not to exceed six~~
26 ~~months in duration, to determine the associated impacts of efficiency~~
27 ~~measures, efficiency opportunities, and local interest.))~~ The
28 department ~~((and the task force))~~ shall establish a list of basin and
29 stream efficiency initiatives and select an irrigation area for a
30 voluntary demonstration project.

31 (2) Prior to conducting conservation assessments and developing
32 conservation plans, the department of ecology shall secure technical
33 and financial assistance from the bureau of reclamation to reduce the
34 costs to the state to the extent possible.

35 (3) A "conservation assessment" as described in this section shall
36 be conducted before a demonstration project to increase the efficiency

1 of irrigated agriculture is undertaken for an irrigated area, a basin,
2 subbasin, or stream. The conservation assessment should:

3 (a) Evaluate existing patterns, including current reuse of return
4 flows, and priorities of water use;

5 (b) Assess conflicting needs for future water allocations and
6 claims to reserved rights;

7 (c) Evaluate hydrologic characteristics of surface and ground water
8 including return flow characteristics;

9 (d) Assess alternative efficiency measures;

10 (e) Determine the likely net water savings of efficiency
11 improvements including the amount and timing of water that would be
12 saved and potential benefits and impacts to other water uses and
13 resources including effects on artificial recharge of ground water and
14 wetland impacts;

15 (f) Evaluate the full range of costs and benefits that would accrue
16 from various measures; and

17 (g) Evaluate the potential for integrating conservation efforts
18 with operation of existing or potential storage facilities.

19 (4) The conservation assessment shall be used as the basis for
20 development of a demonstration conservation plan to rank conservation
21 elements based on relative costs, benefits, and impacts. It shall also
22 estimate the costs of implementing the plan and propose a specific
23 basis for cost share distributions.

24 The demonstration conservation plan shall be developed jointly by
25 the department and a conservation plan formulation committee consisting
26 of representatives of a cross-section of affected local water users,
27 members of the public, and tribal governments. Other public agencies
28 with expertise in water resource management may participate as
29 nonvoting committee members. A proposed demonstration conservation
30 plan may be approved by the department and the committee only after
31 public comment has been received.

32 (5) The department shall reimburse any members (~~of the task force~~
33 ~~in subsection (2) [(1)] of this section or~~) of the committee in
34 subsection (4) of this section who are not representing governmental

14 NEW SECTION. **Sec. 872.** The legislature declares there has been an
15 excessive proliferation of boards and commissions within state
16 government. These boards and commissions are often created without
17 legislative review or input and without an assessment of whether there
18 is a resulting duplication of purpose or process. Once created, they
19 frequently duplicate the duties of existing governmental entities,
20 create additional expense, and obscure responsibility. It has been
21 difficult to control the growth of boards and commissions because of
22 the many special interests involved. Accordingly, the legislature
23 establishes the process in this chapter to eliminate redundant and
24 obsolete boards and commissions and to restrict the establishment of
25 new boards and commissions.

26 NEW SECTION. **Sec. 873.** A new section is added to chapter 43.41
27 RCW to read as follows:

28 (1) The governor shall conduct a review of all of the boards and
29 commissions identified under section 874 of this act and, by January
30 8th of every odd-numbered year, submit to the legislature a report
31 recommending which boards and commissions should be terminated or
32 consolidated based upon the criteria set forth in subsection (3) of
33 this section. The report must state which of the criteria were relied
34 upon with respect to each recommendation. The governor shall submit an
35 executive request bill by January 8th of every odd-numbered year to
36 implement the recommendations by expressly terminating the appropriate

1 boards and commissions and by providing for the transfer of duties and
2 obligations under this section. The governor shall accept and review
3 with special attention recommendations made, not later than June 1st of
4 each even-numbered year, by the standing committees of the legislature
5 in determining whether to include any board or commission in the report
6 and bill required by this section.

7 (2) In addition to terminations and consolidations under subsection
8 (1) of this section, the governor may recommend the transfer of duties
9 and obligations from a board or commission to another existing state
10 entity.

11 (3) In preparing his or her report and legislation, the governor
12 shall make an evaluation based upon answers to the questions set forth
13 in this subsection. The governor shall give these criteria priority in
14 the order listed.

15 (a) Has the mission of the board or commission been completed or
16 ceased to be critical to effective state government?

17 (b) Does the work of the board or commission directly affect public
18 safety, welfare, or health?

19 (c) Can the work of the board or commission be effectively done by
20 another state agency without adverse impact on public safety, welfare,
21 or health?

22 (d) Will termination of the board or commission have a significant
23 adverse impact on state revenue because of loss of federal funds?

24 (e) Will termination of the board or commission save revenues, be
25 cost neutral, or result in greater expenditures?

26 (f) Is the work of the board or commission being done by another
27 board, commission, or state agency?

28 (g) Could the work of the board or commission be effectively done
29 by a nonpublic entity?

30 (h) Will termination of the board or commission result in a
31 significant loss of expertise to state government?

32 (i) Will termination of the board or commission result in
33 operational efficiencies that are other than fiscal in nature?

34 (j) Could the work of the board or commission be done by an ad hoc
35 committee?

36 NEW SECTION. **Sec. 874.** The boards and commissions to be reviewed
37 by the governor must be all entities that are required to be included
38 in the list prepared by the office of financial management under RCW

1 43.88.505, other than entities established under: (1) Constitutional
2 mandate; (2) court order or rule; (3) requirement of federal law; or
3 (4) requirement as a condition of the state or a local government
4 receiving federal financial assistance if, in the judgment of the
5 governor, no other state agency, board, or commission would satisfy the
6 requirement.

7 NEW SECTION. **Sec. 875.** A new section is added to chapter 43.41
8 RCW to read as follows:

9 A new board or commission not established or required in statute
10 that must be included in the report required by RCW 43.88.505 may not
11 be established without the express approval of the director of
12 financial management. The director shall, by January 8th of each year,
13 submit to the legislature a list of those boards and commissions that
14 were requested for approval and those that were approved during the
15 preceding calendar year.

16 NEW SECTION. **Sec. 876.** A new section is added to chapter 43.41
17 RCW to read as follows:

18 When acting on a request to establish a new board or commission
19 under section 875 of this act, the director of the office of financial
20 management shall consider the following criteria giving priority in the
21 order listed:

22 (1) If approval is critical to public safety, health, or welfare or
23 to the effectiveness of state government;

24 (2) If approval will not result in duplication of the work or
25 responsibilities of another governmental agency;

26 (3) If approval will not have a significant impact on state
27 revenues;

28 (4) If approval is for a limited duration or on an ad hoc basis;

29 (5) If the work of the board or commission could be effectively
30 done by a nonpublic entity;

31 (6) If approval will result in significant enhancement of expertise
32 in state government; and

33 (7) If approval will result in operational efficiencies other than
34 fiscal savings.

35 NEW SECTION. **Sec. 877.** (1) Sections 872 through 876 of this act
36 are necessary for the immediate preservation of the public peace,

1 health, or safety, or support of the state government and its existing
2 public institutions, and shall take effect immediately.

31 *Sec. 894 was vetoed, see message at end of chapter.

32 *Sec. 895. RCW 43.70.410 and 1990 c 270 s 3 are each amended to
33 read as follows:

34 As used in RCW 43.70.400 through 43.70.440, the term "head injury"
35 means traumatic brain injury.

36 A head injury prevention program is created in the department of

5 and coordinate public education efforts currently underway within state
6 government and among private groups to prevent traumatic brain injury,
7 including, but not limited to, bicycle safety, pedestrian safety,
8 bicycle passenger seat safety, motorcycle safety, motor vehicle safety,
9 and sports safety. If the department finds that programs are not
10 available or not in use, it may, within funds appropriated for the
11 purpose, provide grants to promote public education efforts. Grants
12 may be awarded only after recipients have demonstrated coordination
13 with relevant and knowledgeable groups within their communities,
14 including at least schools, brain injury support organizations,
15 hospitals, physicians, traffic safety specialists, police, and the
16 public. The department may accept grants, gifts, and donations from
17 public or private sources to use to carry out the head injury
18 prevention program.

19 The department may assess or contract for the assessment of the
20 effectiveness of public education efforts coordinated or initiated by
21 any agency of state government. Agencies are directed to cooperate
22 with assessment efforts by providing access to data and program records
23 as reasonably required. The department may seek and receive additional
24 funds from the federal government or private sources for assessments.
25 Assessments shall contain findings and recommendations that will
26 improve the effectiveness of public education efforts. These findings
27 shall be distributed among public and private groups concerned with
28 traumatic brain injury prevention.

36 safety, to increase driver skills in avoiding pedestrian and motor

1 vehicle accidents, and to determine drivers' abilities to avoid
2 pedestrian motor vehicle accidents.

3 *Sec. 896 was vetoed, see message at end of chapter.

4 *Sec. 897. RCW 44.40.070 and 1988 c 167 s 10 are each amended to

19 constitute no part of the law.

20 NEW SECTION. **Sec. 906.** This act takes effect July 1, 1994.

Passed the House March 14, 1994.

Passed the Senate March 14, 1994.

Approved by the Governor April 6, 1994, with the exception of
certain items which were vetoed.

Filed in Office of Secretary of State April 6, 1994.

1 Note: Governor's explanation of partial veto is as follows:

2 "I am returning herewith, without my approval as to sections 878
3 through 903, Engrossed Substitute House Bill No. 2676, entitled:

4 "AN ACT Relating to the restructuring of boards, committees,
5 commissions, and councils;"

6 Engrossed Substitute House Bill No. 2676 eliminates and
7 consolidates 49 boards and commissions. Sections 878 through 903 of the
8 bill would abolish the Washington Traffic Safety Commission and
9 transfer its functions to the Washington State Patrol. While I
10 generally favor consolidating small single purpose commissions into
11 larger agencies for efficiency purposes, I am not convinced this
12 particular merger is advisable at this time.

13 Any merger of these functions should consider alternatives that
14 balance opportunities for more efficient administration of grant funds,

1 fair and equitable grant distribution, program effectiveness, and
2 active involvement and support of the traffic safety community. To
3 ensure that these factors are evaluated in any future decision
4 regarding the location of traffic safety functions, I have directed the
5 Office of Financial Management to work with the Traffic Safety
6 Commission, the legislature, and the traffic safety community to review
7 organizational alternatives for traffic safety functions. This review
8 will be conducted as part of our overall evaluation of boards and
9 commissions required by sections 872 through 876 of Engrossed
10 Substitute House Bill No. 2676.

11 With the exception of sections 878 through 903, Engrossed
12 Substitute House Bill No. 2676 is approved."
